

JEF GROSFELD – COLORIST

WWW.KIDJEF.COM | PHONE +31624537929 | GROSFELD@OUTLOOK.COM

Professional colorist for film and video productions. Based in The Netherlands I have worked on many films, documentaries, commercials and television shows. In working on all these various productions I try and find a balance between creating beautiful pictures, maintaining the best possible quality and satisfy the client to his taste. Coming from working on set as a cameraman myself I can easily translate between DP's, directors and clients. My ambition is to expand my services abroad and work wherever I can.

I have mainly worked on the Nucoda Filmmaster system which is one of the best tools out there. Also I have worked on systems like Baselight, Scratch and Resolve.

Kid Jef is taking part in Loods Lux & Lumen, based in Amsterdam.

Please find a selection of projects I have worked on below:
